SAE COMPLIANT

The Diode Difference

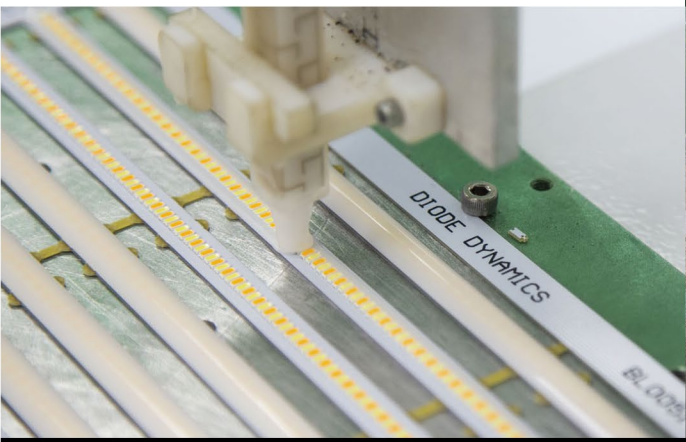

XM0080E

At Diode Dynamics, we conduct all necessary engineering and testing for our products internally in St. Charles, Missouri. Unlike other manufacturers, we test the LED bulbs inside factory lamps, to check the resulting performance and output. We conduct this testing in-house with our goniometer, which is a machine that slowly rotates a factory lamp, and measures the effective beam pattern.

ASSEMBLED IN USA

Many of our products are proudly produced in-house by our manufacturing division. This allows us to maintain complete quality control with the final application in mind and deliver products to the market much quicker than others in the industry.

TOYOTA LED LIGHTING UPGRADES

SL¹ LED BULBS

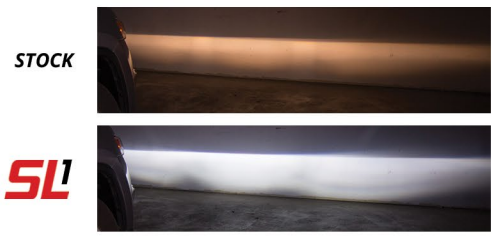

- Direct plug-and-play replacement bulb
- Correct optical focus for Street Legal output
- Engineered and assembled in USA
- Zinc-cast heatsink and driver for reliability
- Luxeon ZES chips automotive grade high-power LEDs
- Copper-core PCB core for maximum heat transfer
- Dust and water-resistant MagLevSunon Fan
- 1630 lumens

SL STREET LEGAL

PLUG & PLAY

ASSEMBLED IN USA

SLF LED BULBS

- Direct plug-and-play replacement for fog light bulbs
- Correct optical focus for Street Legal output
- Engineered and assembled in USA
- Zinc-cast heatsink and driver for reliability
- Available in 6000K cool white and 3000K yellow
- Dual 3-chip automotive grade high-power LEDs
- Aluminum PCB core for maximum heat transfer
- 780 lumens
